Invitation

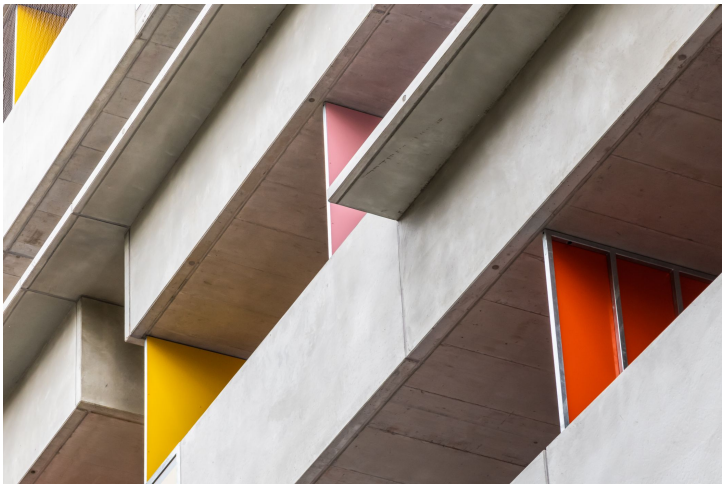

Gallery

in sense of "living in the city"

subsidized housing

We would like to introduce you to Mr. **Thomas Aujero Small**, former Mayor of Culver City, Chairman of the Sustainability Council for the Los Angeles Metro Transportation Authority. In order to find synergies for the USA, Mr. Small visited Vienna with a commission in September 2022.

In this context, we jointly visited and inspected our project in Spallartgasse 1140 Vienna.

We have discovered some synergies with regard to dealing with respectful living in the city and subsidized housing.
